

# ENGAGEMENT SIGNING ALBUM

Timothy Whaley & Associates  
PHOTOGRAPHIC ARTISTS

## MUSEUM COLLECTION

Our Engagement Signing Album is a keepsake you will treasure for years to come. Not only does it hold your favorite engagement photographs, its matted pages are the perfect backdrop for brightly colored words of well wishes, love, and advice from friends and family, resulting in a unique guest signing album.

Its timeless design includes a black, simulated- leather cover and has the contemporary mat options.

The design of your album is completely individualized and is determined by your personal preferences, style of photography, and by using our convenient “How to Guide,” as well as the album order form and mat guide. Timothy Whaley & Associates will fully assemble the album, resulting in a professionally-finished family heirloom.

## HOW TO GUIDE:

Laying out an album, can be a challenging task. Timothy Whaley & Associates can help make the experience easier with the use of some basic knowledge, tips and tricks that have been compiled from our years of experience.

- If you would like to submit your wedding invitation or a thank you note for your guests, we would be happy to assembly it into the opening black page of the album.
- The left-sided pages of the album will hold the matted images, the right side will allow guests to sign your album.
- The multiple-image mats are great to showcase a series of pictures from the same pose. It provides a sense of cohesion to the page and allows your guests to enjoy the range of emotions you shared.
- The single-image mats are a wonderful way to draw attention to a single moment that you'd like your guests to focus on.
- Color photographs can be changed to black and white or sepia tone. Black and white photographs can be changed to sepia tone but NOT color. Please specify if you are changing the photograph from its original format.
- On a sheet of paper, write down the proof numbers of the images you are considering with a brief description of the image. Indicate whether you'd like the image in black and white or color. Also, make note of the photograph's orientation, “H” for horizontal images or “V” for vertical images.

*Example: 0012 Bride and Groom by Lake – Color – H.*

You can then look at the series of images you have chosen and match them with potential mat options.

## QUICK REFERENCE

**Album Size:** 10x10

### Album:

5 matted sides with images .....\$195

10 matted sides with images . . . .\$.280
